Software release definition

ACTIVE SUPPORTED RELEASE

Each release of Corebridge product is fully supported for two years from its initial stable release. During this period, bugs and security issues that have been reported are fixed and are released on an as-needed basis: depending on the number of reports.

After two year period of active support, each release is then supported for an additional year for critical bugs and security issues only.

UNSUPPORTED RELEASE

Once the three years of support are completed, the product release reaches its end of life and is no longer supported.

If you are using unsupported release, we strongly recommend you to upgrade this release to a current release, as using older releases may expose you to security vulnerabilities and bugs that have been fixed in more recent releases.

COREBRIDGE SUITE - ACTIVE SUPPORTED RELEASES

Version	Creation Date	Description
8.2.0.0	31/08/2015	Status: major release
8.2.1.0	14/09/2015	Status: minor release
8.2.2.0	01/10/2015	Status: minor release
8.3.0.0	21/03/2016	Status: major release
8.3.1.0	05/06/2016	Status: minor release
8.3.2.0	02/09/2016	Status: minor release
